An Innovative & Meaningful Approach to Home Care

Our philosophy differs from many other home care providers. Instead of focusing only on addressing your loved one's medical conditions, we strive to empower them physically, mentally, and emotionally. We counteract the feelings of loneliness, helplessness, and boredom to keep your loved one engaged, comfortable, and active.

2-24 HOUR CARE AVAILABLE

Assistance In Home Care offers personalized solutions regardless of the duration. Whether it's for 2 or 24 hours, our caregivers are available when you need them most. Our helpful staff will work closely with you to determine the care schedule that fits the needs of you and your loved ones.

Frequently Asked Questions

Isn't every caregiver the same? Why shouldn't I just go with the cheapest one?

We validate skill set and professional experience to ensure your loved one is being cared for by a qualified caregiver that fits their personality and needs.

Is it necessary for me to sign a contract requiring a deposit or up-front fee?

No. We only require a service agreement which does not require a monetary or time commitment and can be cancelled with 24 hours.

How are emergencies handled after normal business hours?

Our office phone lines are forwarded to the owner and staff's cell phones after hours to ensure your call will be answered or returned within 2 hours.

Does the agency employ a nurse, social worker or other qualified professionals to make regular visits to the client's home?

Our agency employs 2 RNs and 3 LVNs. Should your loved one require a nurse visit, we are here to help. Assistance In Home Care performs quality visits regularly to ensure the personalized care plan is being executed.

Is the company a California Registered home care agency?

A home care agency is required by law to register with the state of California. Our license number is 304700029.

Will the agency allow you to meet your caregiver before services start?

We prefer our clients to meet the caregivers before the first shift starts in order to make the transition more comfortable. Assistance office staff will be present for this step of establishing and maintaining quality care.
